

These horizontal cable managers with feed-through openings provide organized routing and management for cables within the rack. Legrand® feed-through cable management panels provide organized management of patch cables horizontally, vertically, and from front to back on 19 inch EIA distribution racks. Panels are available in a variety of configurations to accommodate different densities, rack unit sizes and ring layouts.

Features & Benefits

| | |
|--|-------------------------|
| Provides organized management of patch cables horizontally and front to back | Rings made out of steel |
| Maximum ring fill capacity using Category 6 cable is 130 cables | |
