

# Mass Fusion Splice Solutions

## FIBER SPLICE MODULES

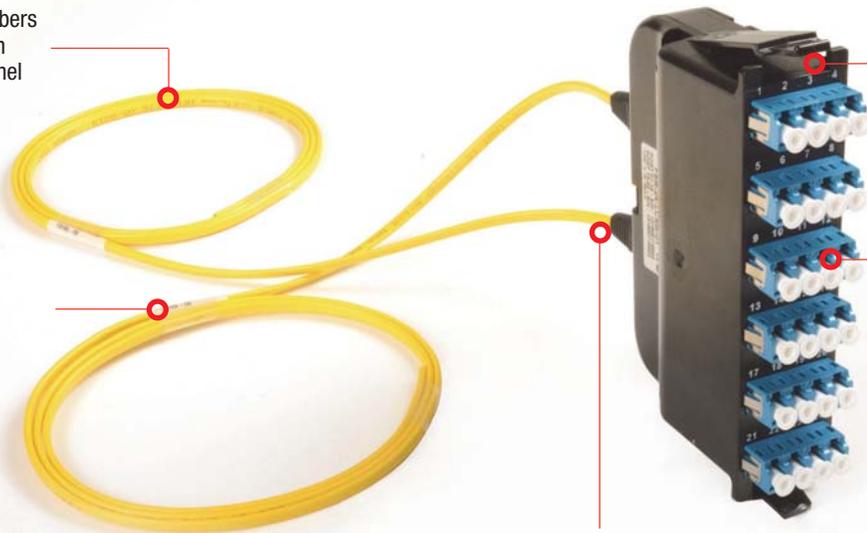

Siemon Splice Modules provide an interface between bulk cable and LC duplex jumpers that connect directly to active equipment. The splice modules are offered in ribbon or 900um tight buffer pigtail options. These modules allow mass-fusion splicing of ribbon pigtails directly to ribbon cable or 900um tight buffer pigtails to loose fiber cable. The splice modules are designed using Siemon's Quick-Pack® footprint and work in conjunction with Siemon's Expanded RIC or FCP3 fiber enclosures.

### Color Coded Fibers

Allows for like-color fibers to be fusion spliced on each side of the channel to eliminate confusion

### Jacketed Pigtail

Available in ribbon or 900um tight buffer fiber

### Quick-Pack® Splice Modules

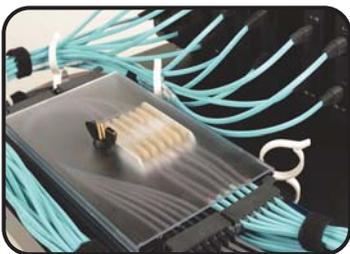

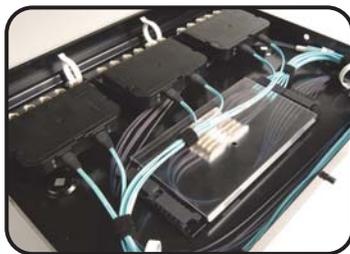

Can be inserted or removed with a single finger for quick and easy access

### LC Interface

Available in 12 or 24 fibers

### Strain Relief

Cable passes through strain relief boot at the rear of the module and is preterminated to an LC connector plugged into the back of the LC adapter. Custom designed boot maintains bend radius for the fiber exiting the modules

### EXPANDED RIC FIBER ENCLOSURES

The fiber splice modules can be used in Siemon's Expanded RIC or FCP3 fiber enclosures.

LC Fiber Port Position		
Pigtail Color	A Side Polarity*	B Side Polarity*
Blue	1/13	2/14
Orange	2/14	1/13
Green	3/15	4/16
Brown	4/16	3/15
Slate	5/17	6/18
White	6/18	5/17
Red	7/19	8/20
Black	8/20	7/19
Yellow	9/21	10/22
Violet	10/22	9/21
Rose	11/23	12/24
Aqua	12/24	11/23

Fiber Splice Module Performance			
Fiber Type		MAX. Insertion Loss (db)	MIN. Return Loss (db)
6MM	62.5/125 (OM1)	0.50	25
5MM	50/125 (OM2)	0.50	25
5L-MM	50/125 (OM3)	0.25	30
5V-MM	50/125 (OM4)	0.25	30
SM-LWP	SM (OS1/OS2)	0.25	55

\* Opposing splice module types must be used on opposite ends (example: "A" side & "B" side) of the same fiber link to maintain proper polarity from transmitter to receiver

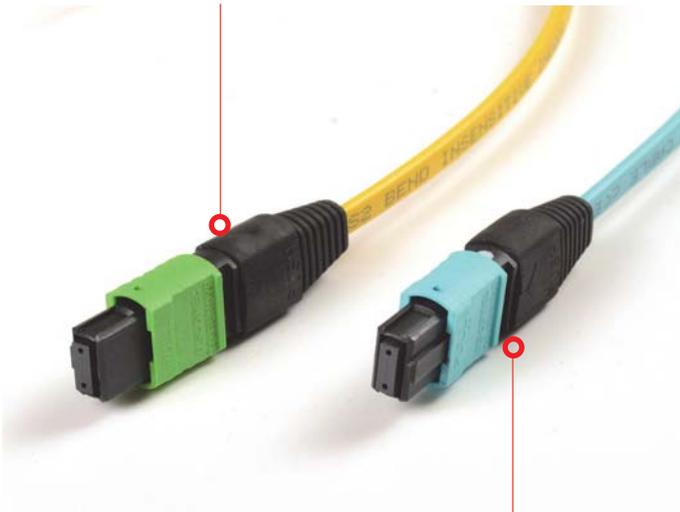

# Mass Fusion Splice Solutions

## MTP PIGTAILS

Siemon's fusion splice solutions also include an MTP pigtail option which can be connected to a RIC MTP adapter plate or plug and play module and then mass fusion spliced within the fiber enclosures. MTP pigtails are the ideal solution when field-installing an MTP interface for a 40/100G application.

### MTP Connector Gender

Options for both male or female

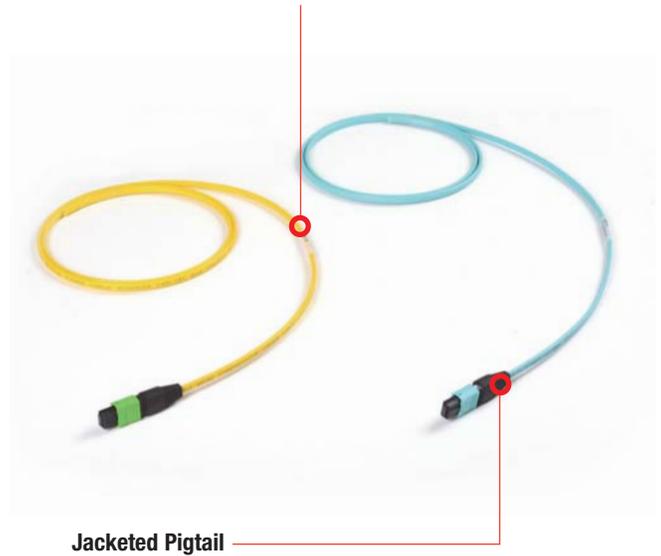

### Performance

All MTP pigtails are manufactured to Low Loss specifications

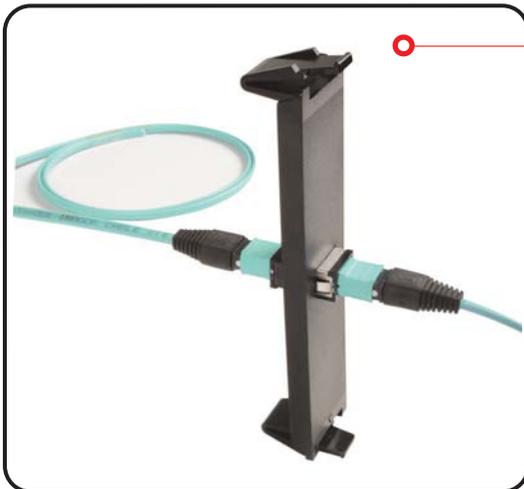

### Identification

Pigtails are serialized for easy identification and reference to test data that ships with every pigtail

### Jacketed Pigtail

Available in ribbon fiber, OM3, OM4 and Singlemode

### MTP Pigtail

The MTP pigtail allows for field installable MTP connectivity using ribbon cable and mass fusion splice installation practices

### MTP PIGTAIL OPTICAL SPECIFICATIONS

Fiber Type	Performance Class	Max. Insertion Loss	Min. Return Loss (db)
5L	OM3 XGLO 300 Low Loss	0.20	20
5V	OM4 XGLO 500 Low Loss	0.20	20
SM-LWP	OS1/OS2 XGLO Singlemode	0.75	55

## Expanded RIC Enclosure

Simon's Rack Mount Interconnect Center provides superior fiber density without sacrificing protection and accessibility. Key features include extending the depth of the enclosure to allow added space for fusion splicing and cable slack storage. With superior cable management, port identification, fiber accessibility and security, the Expanded RIC is the best way to protect mission critical fiber connections.

### Security

Single finger latch on both front and rear doors. Included key locks prevent unauthorized access for enhanced security

### Quick Release Hinges

Spring loaded hinges enable easy removal of front and rear doors for complete access to fiber connections

### Port Identification

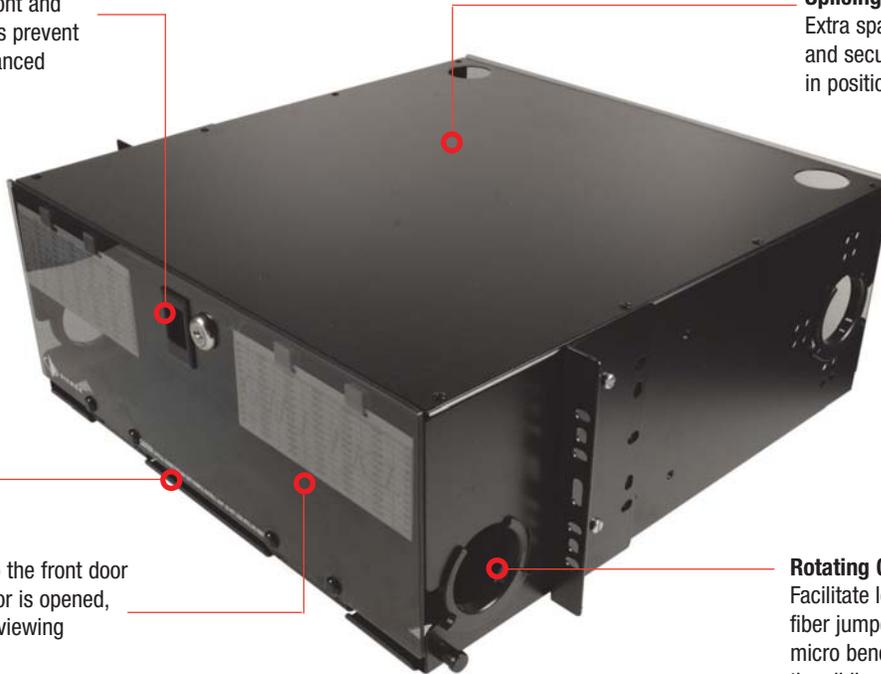

Hinged labels are mounted to the front door for full visibility. When the door is opened, the labels flip down for easy viewing

### Splicing Capability

Extra space provided to mount and secure multiple splice trays in position

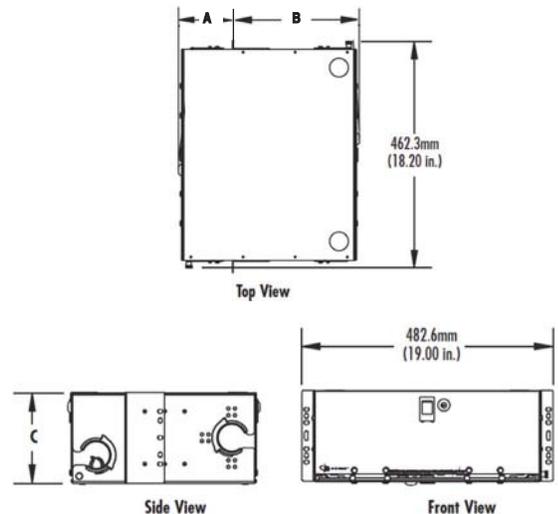

### Rotating Grommets

Facilitate loading and retention of fiber jumpers while minimizing micro bending stress when using the sliding tray

## EXPANDED RIC ENCLOSURE DIMENSIONS

Expanded RIC3 Part #	Mounting Bracket Position	A		B		C

### FIBER CONNECT PANEL

Part #	Description
FCP3-DWR . . . . .	6- to 72-fiber (up to 288 fiber with MTP adapter plates) Fiber Connect Panel with sliding tray, accepts (3) Quick-Pack® adapter plates, 1U, black. Includes mounting brackets, housing/tray, fiber managers, grommets, label holders, and labels <i>height: 43.2mm,</i> <i>width: 482.6mm,</i> <i>depth: 355.6mm</i>
FCP3-RACK . . . . .	6- to 72-fiber (up to 288 fiber with MTP adapter plates) Fiber Connect Panel with fixed tray, accepts (3) Quick-Pack adapter plates, 1U, black. Includes mounting brackets, housing/cover, fiber managers and grommet <i>height: 43.2mm,</i> <i>width: 482.6mm,</i> <i>depth: 241.3mm</i>

Note: 1U = 44.5 mm

### MASS FUSION SPLICE ACCESSORIES

Part #	Description
HT-MFS . . . . .	40mm mass fusion heat shrink sleeve for ribbon fiber
TRAY-4-R-MFS . . . . .	Mass fusion splice tray for up to (6) 12 fiber splices with sleeve protection holder

### SINGLE FIBER FUSION SPLICE ACCESSORIES

Part #	Description
HT-40 . . . . .	40mm single fiber heat shrink sleeve
HT-60 . . . . .	60mm single fiber heat shrink sleeve
*Heating times may vary depending on heat source.	
TRAY-3 . . . . .	Standard splice tray for up to 24 fusion splices with sleeve protection. For use with Expanded RIC and FCP3 fiber enclosures
